

# ARTICULATE PRESENTER

Develop engaging presentations, briefings, and tutorials for staff, supporters, and volunteers.

Eliminate the time, complexity, and cost of creating custom Flash presentations and online training modules.

Articulate Presenter lets non-technical users create rich media presentations by integrating narration and interactivity with a standard PowerPoint file. At the press of the button, your presentation is transformed to a compelling Flash experience.

No need to rely on expensive Flash programmers. With Articulate Presenter, anyone can get professional-quality results in minutes.

With Articulate Presenter, your presentation is converted to Flash, which is already installed in 98 percent of Web browsers. Articulate Presenter reduces the size of your presentations so they download fast. Used in conjunction with Isoph Blue, Articulate Presenter presentations can be tracked and managed for use in online learning programs, knowledge portals, and public education and advocacy initiatives. Presentations may also be distributed easily on the Web, by e-mail, or on CD-ROM.

With Articulate Presenter, you can:

- Create compelling presentations, complete with narration, animation, and interactivity.
- Develop and deliver content fast, so it's timely and relevant.
- Distribute your message widely over the Internet in a familiar format.

## View Articulate Presenter in Action

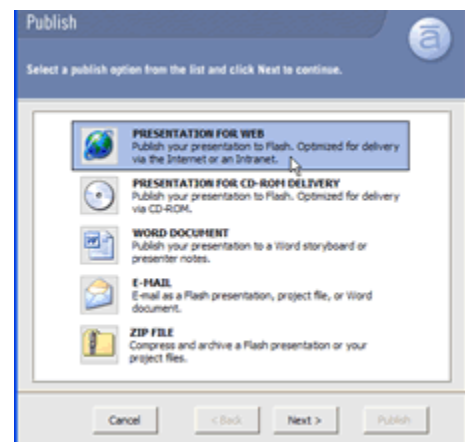

Wonder what Articulate Presenter can produce? See <http://www.isoph.com/ondemand/index.html> for a sample presentation. The presentation was assembled in approximately 30 minutes using a standard computer and a PowerPoint file.

## Download a Trial Copy

Your Articulate Presenter license costs only \$698 and includes support and upgrades for the first year.

- Unlimited access to help desk
- Unlimited access to knowledge base
- Upgrades and maintenance

To download a trial copy or purchase, go to <http://www.isoph.com/presenter.htm>.

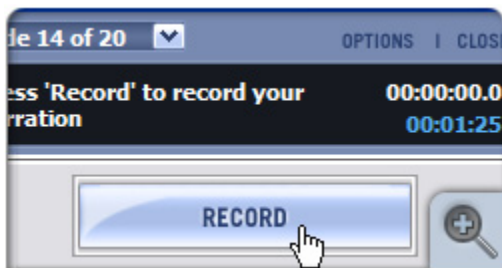

## Features

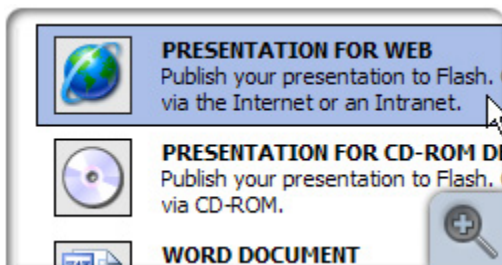

### Feature-rich Playback

Provide an interactive experience with our unique Player, which lets viewers quickly access content, take notes, bookmark slides, and access additional resources. Brand your presentation with your logo and a choice of colors. Add a photo, bio, and information about the presenter.

### Voice Narration

Add voice narration using Presenter's intuitive Record Narration window to guide viewers through your presentation.

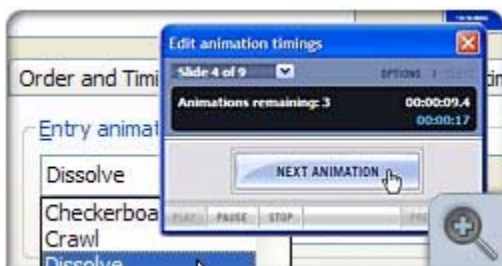

### Multiple Publish Options

Publish to Flash for Web delivery, copy to a CD-ROM, e-mail, and more.

### Storyboard

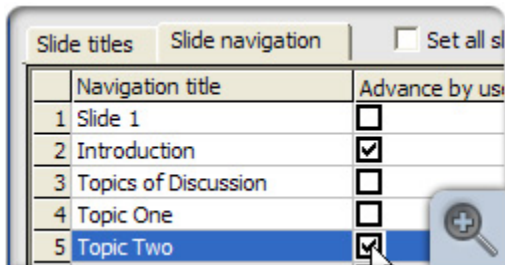

Collaborate with partners to develop your presentations. Our unique Publish to Storyboard feature makes it easy to share, edit, and collaborate in Word.

### Animation Controls

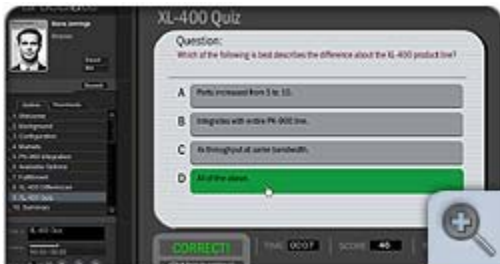

Convert PowerPoint animations to Flash automatically, and edit animation settings with ease.

## Features Continued

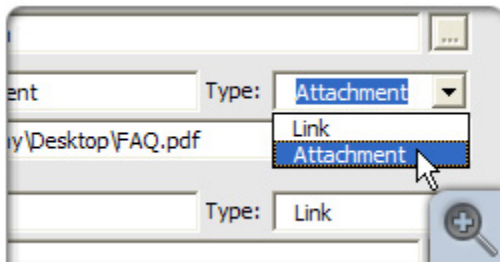

### Slide Properties

Control slide titles and navigation with this simple form.

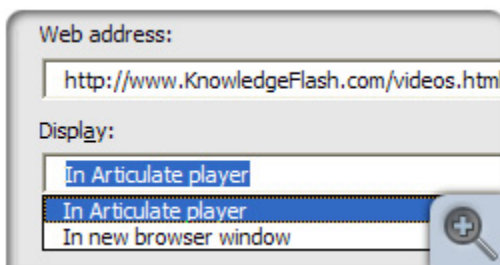

### Custom Interactions

Create quizzes and interactions that provide a knowledge boost.

### Reference Materials

Attach additional resources, such as links and downloads, for easy access and enrichment.

### Web Objects

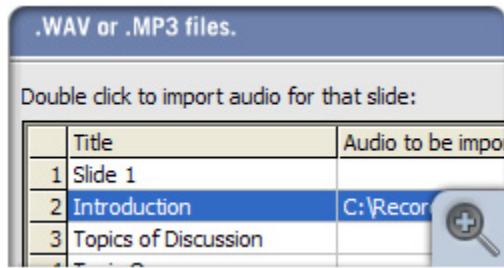

Embed a live Web site or other rich media formats, such as videos and simulations, with the click of a button.

### Flash Movie Integration

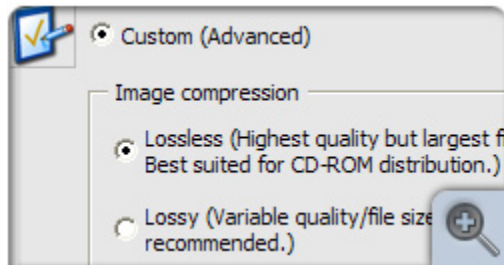

Incorporate existing Flash movies.

## Features Continued

### Audio Import

Leverage your existing .WAV and .MP3 files to add music, sound effects, or professional narration.

### Compression

Select the compression setting that best fits your distribution method.

## Frequently Asked Questions

### 1. What are the system requirements for Articulate Presenter?

To create Flash presentations, you will need:

- Microsoft Windows 98, NT, 2000, or XP
- PowerPoint 2000, PowerPoint 2002 (PowerPoint XP), or PowerPoint 2003

To view presentations, your users will need the Flash 5, 6, or 7 player.

### 2. Do I need to know any Flash or other programming to use Articulate Presenter?

All you need to know is how to use PowerPoint. The learning curve for Articulate Presenter is usually a matter of minutes.

### 3. Can I add my own logo to the presentation?

Sure. All you need is your logo in .JPG, .GIF, or .SWF format. Articulate Presenter will convert it automatically.

### 4. Can I use existing Flash Movies?

Yes, you can easily import Flash Movies with the Insert Flash Movie Wizard.

### 5. How can I incorporate video?

You have two choices for incorporating video. If you have Flash video, you can use the Insert Flash Movie Wizard. If you have video that already exists on a Web site, such as Windows Media, Real Media, or QuickTime, you can use the Insert Web Object functionality.

## For Additional Information

At Isoph, we know learning. Our innovative technology, Isoph Blue, enables the creation of Web communities driven by learning.
